When in need of felt shoes for your family and yourself give me a call.

**Carl J. Braren.**

## MR. MALCOLM MCKENZIE M.P.P. WILL RESIGN

While he has not conferred with the executive of the party in this riding nor notified any officer of the association it seems that Malcolm McKenzie, M.P.P. has decided to resign as member for Claresholm. The announcement was first made in the Calgary Albertan and that was the first the workers here knew of it. It has since been confirmed by Mr. McKenzie. The Review made an effort to connect with Mr. McKenzie by telephone but failed, being told at first that he was out and later that he was ill.

Today however a representative of the Review interviewed him personally and was assured that Mr. McKenzie intends resigning. He has not yet resigned because he is in doubt whether he can resign before a Speaker is elected. His usual in resignation to send the document

## ELECTIONS ARE COMING---GET ON THE LIST

The town council is anxious that everyone qualified should get on the voters list and will extend the time for revision to Nov. 15th. Every man or unmarried woman, or widow, who is assessed for real or personal property from \$20 upwards is entitled to a vote. This should provide for an extensive list in Claresholm. The law aims at making the franchise as general as possible and consequently a low qualification is fixed. It isn't necessary to be an owner of property to vote. If you are a tenant, in property sufficiently assessed, the franchise is yours. The town council is anxious that everyone should be in a position to exercise the franchise and hopes that every citizen has a sufficient interest in the town to see his name on the list.

## CAR SITUATION THIS WEEK AND GRAIN PRICES

The car situation was not greatly improved this week with the exception of Monday. On Thursday, Friday and Saturday of last week there wasn't one car allotted here. At least that was the situation as far as the Review could learn. On Sunday C.P.R. sent down nearly 30 empty cars and 27 were spotted here on Monday. Whether this was a test or not is a matter of conjecture. At any rate the local dealers were equal to the occasion and loaded the cars. On Tuesday there were two cars spotted and three on Wednesday. Mr. George Wales of the Claresholm elevator has sent a notice to the Grain Commission. His elevator has closed down. The cars do not come along with sufficient frequency to make it worth while operating. Elevators are doing business on a close margin this year and unless the grain is kept moving there is no money in it. Assistant Commissioner Snow was expected to leave Winnipeg this week to investigate the situation here and consult with Supr. Price at Calgary. The Alberta Grain and Alberta Pacific companies have erected store houses with 20,000 bushel capacity for extra storage for 40,000 bushels here. These are only temporary structures as it is understood the C.P.R. is making it a condition of the concessions and have designated in the contract that they are to be temporary structures. This is peculiar in view of the complaint of officials that there isn't sufficient elevator capacity here. At Westhouse there are no cars being allotted. Grain is going in slowly there, but the elevators are nearly full. Grain prices on Wednesday were: No. 1, 75; No. 2, 72; No. 3, 70; No. 4, 67; No. 5, 60; No. 6, 52.

## The Water Supply

There was a special meeting of the council on Monday morning to deal with the water problem. The wells have been failing the town again and rather the pumps and the people were beginning to kick. Arrangements have been made to take water from the pipe line and Vanhorn's well until the town apparatus is in working order again. On recommendation of Mayor Frost the Council on motion of Messrs Barclay and Vanhorn decided to have the four wells cleared; to have moraine holes made in the roof above each well so that the pumps could be missed for cleaning purposes and that a derrick be erected. A cement foundation is to be put under the engine and the old engine at present there is to be removed. The pump house is to be short-circuited, remodelled and made comfortably warm. A gravel bed will be put in the Box 15 inches deep.

The water will be got from other sources until these repairs are made and the change will be made as expeditiously as possible.

The town has bought a team for \$275 for the water wagon and there

to the Speaker and it must bear the witnessing signatures of two other members of the Legislature. Mr. McKenzie says he intends looking up the statutes to see if he can withdraw from public life at once. He assigns ill health as the cause and says he hasn't the strength to attend to his duties. He intends spending the winter in the South and is anxious to resign at once. Considerable uncertainty prevailed among the local Liberals owing to the executive not being notified by the member as to his intentions and it cannot be truly said that the intention came first through a newspaper was appreciated.

Speaking in reference to rumors that he wanted a judgeship Mr. McKenzie says he never sought the position and disappointed it would come as a surprise.

that his name is on the list. The voters list as at present compiled is posted in the office of the town clerk. It wouldn't take a minute to call and make sure that you are on the list. Don't neglect it.

In connection with this subject it might be well to suggest that the month of November ends the period in which a percentage is allowed for paying taxes. If you fail to pay by Nov. 30th the 5 per cent privilege ends. All taxes are payable at par during December. The council announces positively that all property in arrears for a year, or over will be sold. The council also has the power to pass a bylaw making the payment of taxes necessary as a qualification for voting.

By attributing

are being fed at the Palace. (Every until the other statutes have opportunity of putting in tenders. Mayor Frost says every effort is being made to assure the town a satisfactory supply of water.

New Telephone Management

Mr. Harmer, Edmonton, Assistant Superintendent of the Provincial telephone system was in town this week arranging for taking over the local management from W.G. N. Johnston. As soon as some necessary cable arrives the offices will be established in the new building erected by Dr. Learn. Mr. A.S. Rook of Wetaskiwin comes here as local manager and will have charge of a new district extending from Nanton to Gramham. He will look after all "troubles" in this and have supervision of all the offices. Claresholm is now a first class office and will have a continuous service for 365 days in the year.

Mr. D. McEwen of Medicine Hat Western representative of the Town to Globe, was in town this past week looking after the interests of his paper.

## THE UP-TO-DATE STORE

### Stands Extremes of Heat and Cold

RUBEROID is used on houses and barns at points 1,000 miles north of Edmonton, Alberta—and the extreme cold has no effect on it.

RUBEROID is used on buildings in the West Indies, South America and the Orient—where the thermometer registers from 90 to 100 degrees for months—and the extreme heat has no effect on it.

Could you ask for a more satisfactory roofing for your house and barn? Write for samples and prices.

For Sale by the  
**Pioneer Lumber Co.**  
Claresholm, Alta.

## A SECOND LIFE

"If I only had another chance!"  
How often are these despairing words uttered when a man feels his strength ebbing, his vital forces depressed, his health undermined—often as the result of his own errors or follies and he realizes the infinite possibilities which might lie in his grasp, could he be induced to receive, in Shakespeare's phrase, "a second life."

Happy for the world, this other chance, this "second life" is to be had for the asking by means of that

### TONIC FOOD FOR THE BRAIN AND THE NERVES

which has been aptly described by a famous physician as "the last word science has spoken" on the subject of remedial agents, and to which, by virtue of its health giving properties, the name of Vital—meaning life "health producer"—has been given.

So potent is its force that, if persevered in, will in addition impart the highest measure of nervous and physical vigor, of which the individual is capable; for there is a maximum capacity of health for everyone, though he may not hitherto have had the fact impressed upon him. Doctors endorse this and daily prescribe Vital in increasing quantities. The constituents which give

### VITAL

this power are known to every physician, and one has testified to the supreme merits of Vital as a REVITALIZING FORCE after wasting illness and as a restorer of health, not only in nervous diseases (with their innumerable symptoms of discomfort and distress including loss of memory, insomnia, irascibility, weakness of the will etc.) but also in anorexia, digestive disturbances and consumption. 50 cents a box or six boxes for \$2.50. For sale at Medical Hall.

### Progress On The Water Works

The council at its last meeting did not do so very much business, but it was interspersed with jokes and laughter and an hour and a half passed off pleasantly. The first heavy expenditure was made on the waterworks contract a cheque for a fancy amount being issued to contractor Breckenridge.

A letter from Ottawa, enclosed orders from the Railway Commission giving the town authority to put wires over the railway track.

A bunch of correspondence was read from the Oil Wells Co. and associated industries asking a number of questions about the town wells, especially etc. upon which to base an estimate for an air lift system.

From letters it was learned that the waterworks boilers were shipped on Oct. 22nd and the engines on 29th. The C.P.R. advised that these cars passed Fort William on the 29th. The machinery for electric light was shipped on the 5th inst.

R. Marshall, boiler inspector, Edmonton, wrote asking the name of the engineer to be in charge of the town engines. He said the man must hold a second class Alberta certificate. He has been engaged as yet.

A report from Mr. Perry showed the quantity of electric fixtures bought and sold the town clearing \$81 per cent profit. Of course the money isn't yet as no one has been expected to pay until the current is turned on.

Engineer Bone reported that one mile of the water pipe had been tested at 240 pounds and approved. The engineer made it clear in response to questions by the Mayor, that Contractor Breckenridge is responsible for the pipes until the whole work is taken off his hands. The pipe then was laid fully half way to the town. The time when the work will be completed depends altogether on the weather. Mr. Bone also answered questions of the Mayor in reference to the concrete piers for the stand pipe to the satisfaction of council. Donna have been laid out the creek to ensure an adequate water supply. Allowance has been made for two feet of ice.

The finance committee report provided for paying out \$30,000, the ditch contractor being paid a large amount on a progress estimate.

The resignation of Dr. Wallwin as medical officer was accepted and Dr. Leeson appointed to fill the balance of the current year.

On a report from Engineer Bone the farmers living along the pipe line will be given connection for \$80. They will then be asked to pay \$28 a year for house connection, and \$250 a head for stock. The \$80 expenditure should add hundreds to the value of every farm.

On motion of Councillors Holmes and Bowen the gasoline engine at the wells now under rent will be bought at \$175, payments to extend over two years. It was found that buying is much cheaper than renting it.

The water committee reported that the town wells had been put in fairly good shape after a period of comparative inaction. Under Supt. Perry's supervision the wells are to be cleaned out. There was objection raised to a new water tank which is said to be of fire wood and not water tight. The Mayor said the council had been too easy on the water tank problem.

J.W. Wooster addressed the council advocating a square tank of two inch plank with metal lining. It is lighter than the present tanks and best can be used in winter to prevent freezing.

Horse flesh is high at present. The water committee had a table to agree on for the water wagon. Councillor Vashon said a team heavy enough and sound would cost \$300 to \$400. The council figures on a team at \$100 or \$600.

Those present were Mayor Frost, and Councillors Barclay, Vashon, Holmes, Cumming and Bowen.

### The Late Charles Sharples

The following from the Quebec Chronicle of recent dates gives a sketch of the career of the late Charles Sharples previous to his coming to Alberta.

"Charles Sharples, formerly of Quebec, was the son of the late Charles Sharples Sr. of 'Blackgreen' of

the firm of C. & I. Sharples, lumber merchants. He was employed in the Upper Town branch of the Union Bank up to the time of his going West in 1881. He was a member of the 8th Royal Rifles and later of the Q.O.C.H. He was made rough riding corporal of B troop, he having ridden through an entire hunt without stirrups, finishing with a drop jump into the road which stopped the entire field. He later held a commission in this crack corps. He was a member of the Tanden Club, Hunt Club, etc., and a gentleman sportsman rider of great pluck and judgement. Many of his old friends will recall his genial personality and regret his early demise."

### A False Story Refuted

The following letter has been received by Mr. M. Freeman of Lethbridge from a former well known citizen of Claresholm in reference to certain rumors.

M. Freeman, Lethbridge.

I am surprised to learn that a report is being circulated around Claresholm that I am dissatisfied with this country. In justice to you and the country generally I wish to say that such statements are false and entirely without foundation. Since I have been here I have made as much money as I could have here and at the same time enjoy life. I further more have a dandy time. I think the climate is fine and have no hesitation in saying that a man who is not afraid of work can do well here and at the same time enjoy life. I further more believe the country has a great future and it is worth any one time to take the trip and see it for themselves.

The above are my sentiments and you are at liberty to make use of this letter as you see fit.

E.L. Schram,  
Burton, B.C.

### Ferguson—Hill

A well known and popular young farmer of the Claresholm district was married in Calgary on Wednesday of last week, Oct. 27th, to Miss George

giana Hill daughter of Mrs. George Hill of Alexander, Man. The ceremony was performed by Rev. S. J. Shortt associate pastor of Knox Presbyterian church. Mr. and Mrs. Ferguson have taken up residence on the farm and start life together with the best wishes of many friends. Mr. Ferguson is a son of Mr. F. H. Ferguson, a well known coal merchant in Toronto and is a cousin of Mr. K. F. Ferguson of Claresholm.

### Meadow Creek Notes

(Review Correspondence)

We make our bow to Review readers.

Mrs. F.L. Hamlyn and children have left for Winnipeg where they will spend the winter.

Thanksgiving supper was given at Mrs. Lawrence Mault's on Oct. 25.

We are glad to report a welcome change for the better in Mrs. Maxwell Sr., who has had a nasty attack of erysipelas.

Who said Meadow Creek couldn't grow wheat? Mr. Malcolm Boyce has threshed out 53 bushels to the acre.

Mr. Sidney Lamb returned home on Monday. He had been spending a day or two in Lethbridge.

School has commenced its winter session Miss Ranken of Ontario is the teacher. By the way the school house is looking just dandy in its freshly painted condition.

Mr. Harold DeForest has returned home from his late where he has been working for some time past.

On Sunday last the first of a series of addresses on present day questions was delivered at the school house entitled "Is the Bible True?" There was a splendid attendance and some bright music by the orchestra. The addresses will be given each Sunday at 3 o'clock, next week the subject is "What's Sin?"

Mr. and Mrs. Bailey have been spending a few days at Macleod this week.

Mr. John R. Craig who has been indisposed with chest trouble for a day or so, is now happily pulling around again.

## THE SCAVENGING SYSTEM

At a recent meeting of the board of trade the question of a scavenging system was discussed and a resolution passed asking the town council to formulate a policy and inaugurate something more modern than that which now obtains. The Review is not aware that the council has done anything other than to authorize John Thob to act as a scavenger "on the usual terms" and giving him the concession of a half-drying license. It may be too near the end of the municipal year for the present council to do much, especially as there was no provision made in the estimates for such an expenditure but it might be advisable to prepare some scheme and have it presented to the ratepayers for consideration at the coming municipal elections.

The council of 1908 passed on record a resolution favoring the introduction of a better method of clearing the streets and giving 90 days in which to take proper action. This year was also to provide for a general cleaning up every three months with the exception of fixed receptacles which were to be cleaned every month. The health officer was to be given extensive powers in the way of drafting regulations, penalties were to be attached for violations. The scavenger was to be given an exclusive license.

In 1907 the legislature passed an Act to amend the statute law by adding a clause as follows:

(A) "Installing box closets with boxes or buckets of uniform size providing for keeping the same in a proper state of cleanliness and repair and filling every pit; providing for the expense of such installation being met either out of the general rates, or by special assessment upon the housesholder immediately benefited, or by a special assessment upon all ratepayers; but in no case shall any such assessment exceed a rate of \$10 per single lot so installed and no such assessment shall be taken into account in determining whether the municipality has exceeded the limitation mentioned in section 143 of this act or 'finances'."

When this law was passed the provincial authorities sent out a number of suggestions advising a galvanized iron or zinc bucket about 16 inches deep and 16 inches in diameter at the top, tapering slightly to the bottom. The town was also advised to have say a dozen extra buckets so that when one wagon load of buckets was removed they could be replaced without putting the householder to the necessity of buying two buckets. A carpenter was to be employed to make the necessary bucket and fill every pit in town. A scavenger was to be employed by the month. It was truly stated that direct municipal control of the work was the only proper way. If the individual householder were left to obey the law of his own whim there would be irregularity and some would grow negligent. This would soon be imposing a fine on the conscientious man and would lead to the neglect of the public health. The cost of all these changes were to be levied directly against the householder and the necessary expense was to be paid out of regular revenue. Provision was also made for the removal of papers, rubbish and kitchen slops. This latter was to be kept in water tight barrels and hauled away at night to the incinerator around the same as the closet pits.

These regulations have been respected by some towns but not by Clareholm. It has been demonstrated that the recent typhoid outbreak was not traceable to the water supply. Where did it come from. The house fly may have carried contagion but it

doesn't seem reasonable to exempt the existent pre-historic closet from all blame. It is true this typhoid affected other towns but it is fully as certain that other towns are equally careless in the sanitary arrangements. Flieg breeds disease, and until the flies is removed there could be no reasonable expectation of freedom from costly epidemics.

The Review is prepared to champion Clareholm's claim to municipal progressiveness but the town cannot hope to be model until something more modern is designed in the way of a scavenging system. If sewers are to follow immediately on the completion of the waterworks that would contribute greatly to the much desired end but unless the town were inclined to enforce every householder to connect his house with the sewer there would still be a necessity of some such system as outlined in the provincial regulations of 1907.

The improvement of the Meadow Creek road will prove of great help to Clareholm as it will give the foot hill ranchers and settlers much easier access to the town.

Hon. Richard McBride pays Stuart Henderson of Yale a deserved compliment in entering the field against John Stewart Henderson, and from long before the Premier wouldn't let an anxious rival ride of him. However Mr. Henderson is a finished organizer the Premier has too to defeat him.

The Knights of Pythias are to be commended on the enterprise shown in getting up a ball and all of the proceeds new hospital. The Pythians deserve well-deserved public support and it is sincerely to be hoped that their effort will result in a handsome sum for the hospital fund. This furnishes opportunity for all to assist and will make an excellent factor of public sympathy for the hospital project. The Knights of Pythias have largely increased their prestige as a result of this effort.

For an unaccommodating bunch the Medicine Hat Conservative Association has no all-folks. The other night the "boys" gathered and elected Charlie Magrath to the echo as he denounced the proposal that Canada should conscript a navy. A resolution of confidence was passed in Mr. Magrath's policy and then when the clearing did under a resolution was passed endorsing leader R. L. Borden who is very much in favor of a Canadian navy. More loud cheering. Daily five lunch hours Medicine Hat shops.

Considerable luncheon is indulged in at times as to the relation of Canadian political parties to the Great parties in the United States. What a man was in the United States should have no bearing on what he should be in Canada. The issues are different and the conditions different. Every American coming to this country should decide for himself on the merits of the issues raised. To say that a Republican or Democrat should be Liberal or Conservative in Canada is an insult to the intelligence of even an uneducated man, and presupposes that he is a party tool more interested in a party name than the issues of the day.

So far as the tax payer is concerned it does not make much difference what side whether ten millions are spent on a war ship direct or sent to the British naval stores. It is ten millions spent. There is some difference in favor of building the ship at home. It would provide work for Canadian workmen and Canadian raw material would be used. If Canada must contribute to the naval strength of the Empire the one national policy would be the decision of building the ships in Canadian yards not having ten million credits in this country. To say that it would build a ship to pay the limiting of our ship and giving money to Canadian and other countries is all the more stupid and a further insult to the intelligence of even an uneducated man.

## Card Of Thanks

Mr. Charles Baker and family of Cammurgy wish through the Review to express their gratitude to all friends who showed such practical sympathy in their recent bereavement in the death of his son, Jesse Eugene. They will long have tender recollection of the sympathy shown.

Charles Baker.

## Chiefly Claresholm

T. W. Brainerd of Barons has been gazetted an official auditor.

D. C. Hobbs of Granum has been gazetted a stock inspector.

Mr. J. W. McDonald, barrister, Macleod, was in town Monday.

District court was being held today Thursday with a very slim docket.

D. Smith travelling superintendent for the Mackay-Harris Co. was in town this week.

Mr. L. L. Wansmaker was reported somewhat improved this week but is still confined to his bed.

W. R. Lindsey and J. F. Reynolds left Saturday last on a trip to Calgary and Golden, B. C.

The Alberta Automobile Company Limited has been incorporated with head offices at High River.

Robert Capie and son of Athol, Oregon, are here looking after real estate holdings in this district.

The Tumbler school district has been empowered to borrow \$1800 to build a new school. Andrew Currie of Staveland is treasurer.

A horse which was being medically treated broke loose Monday afternoon and caused a furore on the streets. It killed with the water wagon and its owner died a few minutes later. The horse was valued at \$250.

The half section owned by the late Vincent Nelson 13 1/2 25 West of Claresholm has been sold to Arthur Knecht for \$17 an acre. The land adjoins Mr. Knecht's estate. C. W. James put through the deal.

Every one interested was greatly pleased this week over the arrival of the machinery for the night dome gas liquefier. It would not be long until at least the electric current is turned on.

Mr. John Miller editor of the Granum Press was in town Tuesday on a short run to the office of the Review accompanied by Mrs. Miller. He is one of the newspaper men one likes to meet and has already done much to boost Granum. The busy grain town has good cause to be proud of its newspaper.

There was a growing interest in the revival meetings being held in the Methodist church this week. Rev. Mr. Webster of Okotoks and Rev. Mr. Bishop of Nanton assisted Mr. Arge and delivered farewell addresses. Holding evangelistic meetings is not so easy a task as it was some years ago but the very evident interest in this series gives promise of great good being done.

A public meeting will be held in the L. O. F. hall Tuesday, Nov. 16th in connection with the Claresholm branch of the Alberta Temperance and Moral Reform League. It is understood this meeting is part of a series of meetings to stimulate interest in the work of the League throughout the province.

Rev. W. G. Fortune will speak and Mr. S. H. Edworthy will temperance worker from Colorado who is giving Alberta a month's service. He is reported to be an orator.

The death of Eugene Baker, formerly of Claresholm took place at the family home on Sunday last at Carmangay. The Deceased was a victim of the great white plague. He had been ill during the last few months but died rapidly. He was a bright young fellow and death cut off a life of promise. He is survived by his father Mr. Charles Baker and mother and brother and sisters. The funeral took place from the Claresholm Methodist Church on Tuesday afternoon. The obsequies being conducted by the Rev. A. B. Agnes. Interment took place in the Christian Cemetery.

The committee, appointed by the town council to ascertain the approximate cost of the erection of a hospital and infirmary therefor met Tuesday night and organized for work. Mr. W. A. Cornwall was appointed chairman and T. W. Quaye secretary. The discussion centered on ways of getting desired information. The secretary was instructed to write to several places and secure information on several points raised. When this is done the committee will meet again to commence active work. Mr. Cornwall was authorized to contact treasurer pro tem in the event of any funds being contributed before the general public subscription is started. Hearty appreciation was expressed of the effort being made by the Knights of Pythias to raise money for the hospital.

Hearty appreciation was expressed of the effort being made by the Knights of Pythias to raise money for the hospital.

John R. Craig of Meadow Creek was in town Wednesday.

Mrs. Camies is in Macleod this week the guest of Mrs. Pirnoux.

Joseph Taylor of Toronto is in town having a look over the country.

Arthur D. Cumming of Barons has gone to Banff seeking recreation and rest.

A. R. Moore, Ellmers new postmaster returned Wednesday from a two week trip to Lemmons, S. Dakota.

Mr. K. F. Ferguson has added a handsome new case to his store and rearranged the interior fittings so as to make it decidedly attractive and more convenient. Mr. Ferguson by assiduous attention to business and courteous treatment of the public is building up an excellent business.

## Looks Bright For Skating Rink

At a well attended meeting in the council chamber on Monday night the preliminary steps were taken toward the building of a skating rink in Claresholm and from the interest and enthusiasm shown there is every prospect of a fine skating and curling rink being erected. Mr. W. C. Cornhill presided and Mr. H. W. Brownlee acted as secretary. The meeting was conducted in a thoroughly business like fashion and instead of talking about it everyone was there to do business. There were not two opinions as to the advisability of building a rink if the money could be raised. Frank Briggs was in from the foot hills and added to the enthusiasm by offering four lots for \$500 and to take half of the amount in stock. Stock subscriptions were called for and \$1000 was collected by these present. Young men so anxious are they to see a rink subscribed for \$25 share and out as nearly all the married men of the town are yet to be seen the prospect seems auspicious for a rink. It is proposed to erect a rink that will be a credit to the town.

It has been suggested that if a building were erected at the entrance toward the Turf Association grounds it could be used in summer by the exhibition association.

## Parkland Literary Society

A large number of the young people of Parkland met last night in the new hardware store of Mr. A. E. Jones and the outcome of the meeting was the formation of a literary and debating society to be called the Parkland Literary Society. The following officers were elected: Hon. Pres. J. M. Glenabedian, M. P. P. Pres. Mrs. W. D. Sherman Vice Pres. Mrs. Jones, Sec. J. A. H. Johnson, Treas. Mrs. L. Thompson, Executive Com. Miss Thompson and Messrs. Johnson and Spencer. Program Com. Messrs. Naim, Dougan, and Gertner and Messrs. North, Sherman and Haysman. A goodly number of members were enrolled and from the spirit of enthusiasm that prevailed the society ought to have a pleasant and profitable season. Meetings will be held every alternate Wednesday during the winter, beginning Nov. 17th at 8 o'clock in the new hall being erected by Mr. Jones of Nanton. Society expenses orange and blue. Membership fee 25c. The society will be glad to hear from any similar organization from the neighboring towns in joint meetings during the winter.

The death of Eugene Baker, formerly of Claresholm took place at the family home on Sunday last at Carmangay. The Deceased was a victim of the great white plague. He had been ill during the last few months but died rapidly. He was a bright young fellow and death cut off a life of promise. He is survived by his father Mr. Charles Baker and mother and brother and sisters. The funeral took place from the Claresholm Methodist Church on Tuesday afternoon. The obsequies being conducted by the Rev. A. B. Agnes. Interment took place in the Christian Cemetery.

## 50% Profit in Four Months

That is what we absolutely assure every purchaser of lots in

# CHIN

The New Town in  
**"SUNNY SOUTHERN ALBERTA"**  
 on the main line of the C. P. R.

The sale will start with a rush. Why? Because the folks living anywhere near the site realize the need of a live town to supply the needs of farmers who own from 160 acres upwards of the 200,000 acres for which there is no trading point nearer than 13½ miles. Chin is situated right in the midst of this wonderfully rich community and has as promising a future as Sterling, Magrath, Grassy Lake, Bow Island and Taber, all of which have sprung out of the prairies within the last five years and are thriving little cities where real estate has doubled and trebled in value.

We put Warner on the map three years ago. It has made good several times over. We have sold more than 300,000 acres of farm land in this section of Alberta within the last four years, and every buyer is now prosperous or wealthy.

Chin is not the visionary scheme of professional town site boomers. It is a legitimate enterprise backed by one of the largest land companies in the Northwest. There is urgent need of a town at the site selected. A red blooded, wide awake man might drop out of a balloon onto any lot in Chin and be sure of making money.

Chin is not to be simply a good business town. We have planned to make it a comfortable place in which to live by donating sites for a School, Church, Post-office, City Market and we are going to put in a city well. There are openings for many lines of business.

### Three Lots Free

To attract immediate sales we are going to give away three lots. Every purchaser of a lot, regardless of price, will stand a chance of getting a percent of a lot, by guessing the nearest number of lots sold up to the time the fifty per cent increase takes place. The first purchaser to guess the exact number, or nearest to the exact number of lots sold will receive a \$100.00 lot, the second nearest in number will receive the \$200.00 and the third one the \$300.00 lot.

Your chance is as good as the next man's

Call or write our nearest office for full particulars.

 CLAREHOLM, ALTA.

### The Drama

We are in receipt of a communication from the office of C. P. Walker, of the Walker theatre, Winnipeg, stating that his representative would be here in a few days to interview a number of our leading citizens relative to a production of "As You Like It" which manager Walker is sending through the West. As this is the most delightful of all Shakespearean comedies, and is to be given by practically an all star cast with a most elaborate scenic and costume equipment, it is hoped that arrangements can be concluded for an engagement here. If the opinion of those interviewed is favorable, and sufficient interest is shown, a subscription list will be circulated and if enough patronage is assured the production will appear here in the near future.

Clareholm people who enjoy something extra in the way of high grade entertainment will make a serious mistake in not reserving the date of the English Grand Opera Singers and Symphony Orchestra who are coming here on Nov. 17th. It will be one of the best attractions seen here for many a moon and Clareholm has reason to feel grateful that such an attraction should stop off at any town under 5000 people. This easily one of the best concert organizations on our and right superb artists will present scenes from standard, grand and light opera in costume.

One of the really beautiful scenes in "Uncle Dan'l" (The Messenger From Jarvis Section) is the closing scene of the first act, showing the arrival of Uncle Dan'l at the old farm house, with the little meeting house in the distance, and the music of church choir faintly discernable; night has fallen and Uncle Dan'l awakened from his reverie, stands face to face with the stern duty he is about to undertake. All is peace and quiet, the whip-poor-will then the curtain descends, but on such a scene of intense quiet emotional acting is seldom seen on any local stage. Mr. Frank O. Ireson will be seen in the title role of "Uncle Dan'l" and it is safe to say that as a strictly first class character actor he has no peer. The company will be here Nov. 15th.

The Musical Eckharts put on an excellent show on Friday last and won high praise for their meritorious work. As musicians they are strictly high class.

### Meadow Creek Road

A gang of twelve men have been busy for several days grading the Meadow Creek road near J.S. Nelsons ranch. The big hill is being cut down with scrapers and made perfectly level. It was a much needed, much appreciated and much expected improvement. In addressing the electors last March Mr. Malcolm McKenzie M.P.P. promised this improvement and the promise has been kept.

## Greatest Attraction Of The Year

Clareholm to be honored with a visit from the English Grand Opera Singers and Symphony Orchestra.

## How Gold Dredges Get the Gold

The steep hills and rugged mountains of the Klondike region give the creeks and small streams, which become from time to time with the melting of the snows the channels and heavy rains to which the country is subject, rapid currents.

The grinding of the pebbles and the crushing of the small stones bring down rocks, sand and gravel from the mountain sides and canyons where they have been deposited.

Some of the gold is carried by the water in a suspended form in the form of fine particles of gold, which are carried by the water in a suspended form.

The process is a long one, and it is not until the water has been carried down the hills and into the river that the gold is carried down.

The result of the process is that the gold is carried down the hills and into the river, and it is not until the water has been carried down the hills and into the river that the gold is carried down.

The gold is carried down the hills and into the river, and it is not until the water has been carried down the hills and into the river that the gold is carried down.

The gold is carried down the hills and into the river, and it is not until the water has been carried down the hills and into the river that the gold is carried down.

The gold is carried down the hills and into the river, and it is not until the water has been carried down the hills and into the river that the gold is carried down.

The gold is carried down the hills and into the river, and it is not until the water has been carried down the hills and into the river that the gold is carried down.

The gold is carried down the hills and into the river, and it is not until the water has been carried down the hills and into the river that the gold is carried down.

The gold is carried down the hills and into the river, and it is not until the water has been carried down the hills and into the river that the gold is carried down.

The gold is carried down the hills and into the river, and it is not until the water has been carried down the hills and into the river that the gold is carried down.

The gold is carried down the hills and into the river, and it is not until the water has been carried down the hills and into the river that the gold is carried down.

The gold is carried down the hills and into the river, and it is not until the water has been carried down the hills and into the river that the gold is carried down.

We control by direct lease from the Canadian Government, One Hundred and Five (105) miles of Dredgeable Ground on the Stewart River, eighty miles from Dawson City, in the Klondike. We have tested the gravel thoroughly with Dredges, and it has been proven rich throughout. As a result of the test, the use of our dredges was recognized, even before the Gold Rush in 1896, to be rich in Gold—it is a matter of public record that the Gold is there. It is located as to be dredged, it is easy to land and handle. And fully dredges could not exhaust the area in a hundred years.

With a prospecting as rich, the payment of dividends and the continued work of development can easily go hand in hand.

To carry the work of development on, we are marketing **Treasure Stock** in our Company. These thousand stockholders, many of them well known in the Canadian country, are already on our books.

This company for Capital a Dredge unit operates at \$100,000. It is a company for the purpose of developing a valuable rich reserve.

Our Company is formed of the gold of head-and-tail business men. General O'Brien, of the Yukon Territory—known and respected by the whole Canadian country, as its head. It is economically managed, with no unearned dividends, or bonds, as in the Klondike Stock.

But the whole story is told in our Prospectus. The Company will bring it to you. The supply is limited. Fill out and send the coupon to-day.

Don't imperil your home or business house with a broken down stove when the best that is made can be bought at moderate prices.

We have also a line of buggies which will be cleaned out at bargain prices. It will pay you to buy for next year now. The money saved will mean big interest on the investment.

**TESKEY & ROBERTSON**  
Clareholm, Alta.

## The American Restaurant

**CHRISTMAS CHOCOLATES**  
In Bulk and Fancy Boxes

Fresh Oysters in any style. Fruits in season. Cigars and cigarettes. All kinds of smoking tobacco. Furnished rooms and board. Prices moderate.

**J. B. BOESE, Prop.**

**McClary's Fuel-Saving Scheme**

Stack-Alta Double Duplex Grates will save you fuel. Grates are equivalent, as shown in illustration. This shows areas to be removed from one end of fire-box without disturbing fire in other end.

And saves fuel as frequently there are more ashes in one end of fire-box than in other. When ordinary four grate are used most coal in one end of fire-box is smothered down with ashes in other.

Remember this feature is patented. Therefore Double Duplex Grates are to be found only on Stack-Alta Steel Range.

For sale by **TESKEY & ROBERTSON**

**The Points That Tell.**

MECHANISM, FINISH, STRENUOUS TESTS and all the points that tell the story of the best in the market are credited to the
